## PART - III

Read the following seen passage carefully and answer the questions given below:

All of us must be careful about disposing the waste. We should never throw it carelessly. We should always dump it into garbage bins. Some of the waste from the kitchen can be dumped into a pit in the garden and covered with soil. After a couple of months, this waste turns into rich manure. This manure can make the garden soil fertile.

We can encourage people to bring their own reusable bags for packaging, to choose reusable products such as cloth napkins and reusable plastic and glass containers.

13. Who must be careful about disposing the waste?

1  
P.T.O.
